Three Newest Grasses Developed by Research Now in **VAUGHAN'S** Master Blend[®] of Merion Formula

**NOW, A MERION LAWN IS NOT ONLY BEST
BUT COSTS LESS THAN SECOND BEST**

While prices have risen for seed of Merion variety of Kentucky blue grass, the advantage of economy over less desirable grasses still remains for Vaughan's Merion Formula Master Blend.

A Merion lawn, to which researchers give top rating for beauty, vigor and wear resistance, is now available at less cost for the same area than the finest Kentucky Blue Grass mixtures.

One pound of Vaughan's Merion Formula, retailing for \$2.40, will seed an area of 750 to 1,000 sq. ft. It would take 2 to 3 lbs. of a high grade Kentucky Blue Grass mixture at a higher total cost to sow an equal area.

In August, Merion Germinates in 7 days

Warm weather in late summer speeds germination of grasses, while cool nights favor the growth of seedling plants. As fall draws near, conditions become better for the sturdy, steady growth of young grass plants. Though germination may take longer as the temperature cools, sowing can be continued (in New York's latitude) with good success until October 15, later in more southern localities. But tell your customers not to delay unless they must!

VAUGHAN'S STRAIGHT MERION KY. BLUE GRASS

Markets Are Firmer On Merion

Packed in attractive 1, 3 and 5 lb. sizes or bulk

1 lb. cartons(Retail \$ 2.95).....	\$18.75 per case of 25

10 lbs.	\$19.00 25 lbs. \$46.75 100 lbs.	\$185.00

ONE POUND WILL SOW 500 TO 750 SQ. FT.

ADVANTAGES OF A MIXTURE.

Wherever lawns are grown, grass seed mixtures have long been considered more certain than any single variety to produce a good lawn. This is because in any lawn area soil texture, drainage, shade and other factors are rarely uniform. The exact variations cannot be told in advance of sowing, so the practice arose of mixing several grasses, adapted to different conditions, to make sure that at least one of the group would thrive over every inch of the soil surface.

VAUGHAN'S MASTER BLEND[®] OF MERION FORMULA

A great improvement has been made in this Merion mixture. Besides a million seeds of Merion Kentucky Blue Grass, it now contains two other new grasses—developed by scientific research—Delta Kentucky Blue Grass and Pennlawn Creeping Red Fescue.

Delta Kentucky Blue Grass, developed by turf researchers in Canada, where seedling vigor and quick early growth are important because of their climate, provides a quick cover for the slower starting Merion.

Pennlawn Creeping Red Fescue, a hybrid developed at the Pennsylvania State University, thrives in sandy soil and shady places, where Merion might grow thinly. Thus a thick green carpet is assured over the entire lawn area, and experience has shown that the beautiful Merion color dominates the lawn.

New scientific garden tool that saves time and money. Insures a uniform seeding by a steady continuous spreading of lawn seed. Can be also used for Grub proofing of Lawns by spreading Dieldrin, Chlordane, Dry Fertilizers or Powdered Weed Killers.

RETAIL EACH	\$4.95
YOUR COST EACH	\$3.30

Vaughan's ONE SHOT

MERION FERTILIZER

20 - 5 - 5

The revolutionary new fertilizer that supplies adequate amounts of plant food in the proper proportions. Full 20 units of nitrogen, from many sources including organics and urea formaldehyde compounds.

Research on the needs of grasses since World War II has shown that a really balanced grass turf fertilizer should contain about four times as much nitrogen as phosphorus and potash. Experts agree that a 4-1-1 ratio is about right for lawns that were formerly overfed with phosphorus and potash by the older formulas such as 5-10-5 or 4-12-4. With Vaughan's One Shot Merion Fertilizer you have quick and slow releasing forms of nitrogen thus giving you a fertilizer that will feed over the entire season.

A proven sales getter at full 40% mark up. Now offered with full direction for Fall application.

Double Your Money on Tulips Sold from this Attractive Display

BEST selling items on the home garden list for fall planting are spring flowering bulbs. They provide most garden color in the first two months of spring. Tall, late flowering tulips give one of the finest displays of the garden year. Years of experience have proved our attractive display box to be the most economical way to offer our customers a varied collection of these outstanding flowers.

Vaughan's ten-compartment display box, staunchly made of 100 point cardboard printed in brilliant colors, will hold 500 bulbs, 50 each of ten varieties.

This beautiful display box, with 500 Top Size tulips, 50 each of ten named varieties, **Including Red Emperor** separately bagged, \$25.00

We use TOP SIZE BULBS, the size which sells best over the counter. The 10 named varieties (50 each) of good named varieties. The price to you is \$25.00 for the box and 500 bulbs of 10 named varieties. You retail them for \$1.25 a dozen, or more, because the selection is worth more, doubling your money. Each variety is packed 50 in a bag labeled with its name. You empty one bag into a compartment, and refill in the same manner when it is empty. This prevents mixtures and loss of bulbs. After the display box and first collection have been bought, refill orders will be accepted for \$24.00 for 500 bulbs, 50 each of 10 varieties, in bags of 50; or \$46.00 for 1,000 bulbs, 100 each of ten varieties. Colored pictures are provided to paste on the compartments. This box keeps the bulbs in the open air, thus preventing bacterial rot which comes when they are sealed in cartons. The named varieties are kept apart without mixing, which adds greatly to their value.

Tulip Display Box Holding 500 Bulbs, 50 each of 10 Named Varieties

Counter Space Needed, 13x29 Inches.

The display box with its garden design printed in brilliant colors occupies very little space on your counter. It is an ornament to any store. It solves the problem of offering bulbs for sale in the retail shop, without danger of mixing varieties, and losing stock.

336 MISCELLANEOUS BULBS AND DISPLAY BOX FOR \$25.00

Vaughan's "SODAR"® CRAB GRASS KILLER

The newest chemical in selective Weed Killers. A patented chemical known as Di Sodium Monomethyl Arsonate. Patent #2678265 "Sodar".® Green superintendents were amazed by the effective way in which this chemical, being new to the weed killing group, removed Crab Grass and Chick Weed from their grass areas without the slightest injury to the Turf Grasses. Not only did it do a better job than those previously used, but it was far more economical and easier to apply. Due to its remarkable selectivity it will not injure Bent Grass, Merion Blue, Kentucky Blue, Fescue, etc. Vaughan's was the first to introduce SODAR® Nationally and still leads the field in tests and experiments. Vaughan's SODAR® Crab Grass Killer is the best Crab Grass and Chickweed Killer known to date. Don't accept substitutes, get the original.

**Best Crab Grass Killer Also
Most Economical**

**Vaughan's Liquid SODAR®
for Quick Kill**

This high-power version of SODAR®, the crab grass killer, comes in liquid form and should be applied with a sprayer. You can see the crab grass plants lose color as it hits them, and complete destruction takes place in a matter of hours, not days.

A selective crab grass killer, containing the New AMA (Amine Methyl Arsonate). Very fast acting, effective all season long with no injury to fine turf. 1 quart treats 2,000 sq. ft.
